

Adrià Fernández

ANDROID DEVELOPER

👋 HEY THERE

I'm Adri, a Barcelona-based enthusiast with a deep passion for mobile development. What drives me into this is the ever-evolving world of technology and the transformative potential it holds. As I've navigated the exciting realm of mobile app development, I've also had curiosity for the UX to improve my developments.

👤 PERSONAL PROJECTS

- **Sunset:** An app to share sunsets spots, discover new ones and predict the quality of the sunset (Fully made with compose, ads integration, back with firebase, deeplinks, working with google maps api)
- **Split:** An app to share group expenses in a very easy way (Fully made with compose, backend with KTOR, made a figma with full UX study and own design system.
